

## INTRINSIC DESIGN FEE SCHEDULE

### Intrinsic Design

Intrinsic Design is an exclusive multi-layering technique artistically engineered to deliver optimum aesthetic results for discriminating patients, or any type of cosmetic restorative needs. The appearance is as natural as nature intended it to be.

### Complimentary Services

#### Case Planning & Technical Support

Please call for technical help and support regarding any case. Our team can provide helpful information with choosing materials, ideal preparation designs, shading, and more.

#### Continuing Education

Our customers receive free CE on topics such as prosthetics, digital technology, advanced case presentations, and more.

#### Practice Marketing

We help our customers grow, profit, and thrive with their dental practices. Our laboratory works closely with the ADA's Intelligent Dental Marketing, and our customers get results. Just ask us how!

Free pick-up and delivery in SLC, Ogden and Provo areas. Ten working days of lab time are required from date received. Rush cases require approval and will be charged a rush fee. Shipping is available for other areas.
